**OPEN PROBLEMS FORMULATED
AT THE INTERNATIONAL ALGEBRAIC CONFERENCE
DEDICATED TO THE 90TH ANNIVERSARY OF A. I. STAROSTIN**

I. N. Belousov, A. A. Makhnev, N. A. Minigulov

This article provides an overview of the main events of the International Algebraic Conference, which took place in a mixed format on October 4–9, 2021, and presents a list of open problems formulated by the participants during the open problem hour held at the end of the conference.

Keywords: finite group, formation of finite groups, distance-regular graph, periodic group, edge-transitive graph.
